Quality Cloakroom Tag Sets

Durable, Classy, Professional...

Gone are the days when you need to hand your customers a tatty bit of plastic or cardboard as a receipt for their items.

TagFactory Cloakroom Tags are made of **tough anodised aluminium**, with the numbers deep-engraved into the surface. Anodised aluminium is light-weight, scratch-resistant and very durable. These tags will last for many years.

Available in 8 vibrant metallic colours and 4 sizes, Tagfactory Cloakroom Tags project a quality impression of your establishment.

These tags are made-to-order and can be customised in various ways to suit your needs.

Easy and Efficient Clipping Mechanism

The tags comprise a set, clipped together with a sprung steel split-ring and a trigger-clasp.

We recommend a brightly coloured, large tag for the cloakroom, and a smaller tag for your customer, as it's easier to keep these smaller tags in a purse, bag, pocket or wallet.

Simply un-clip the tags, hand one to your customer, and use the clip, or ring, to attach the other tag to their items.

When the customer returns to collect their items, join the tags together again. This helps prevent tags from getting mislaid or lost.

If you need more than one tag for the cloakroom – to mark a coat, and perhaps a suitcase – then purchase as many as you need. Clip all sets together for safe storage when not in use.

Colours and Sizes

	RED	PURPLE	DARK BLUE	GOLD	PINK	GREEN	LIGHT BLUE	BLACK
50 mm								
38 mm								
32 mm								
25 mm								

*We recommend a **LARGE** tag for the cloakroom, and a **SMALL** tag to hand to the customer. Choose a bright colour for the cloakroom, for better visibility.*

Features and Customisations

The cloakroom's tag is numbered on BOTH SIDES, so it doesn't matter which side is facing outwards – the number is easily visible.

This makes locating your customer's items faster and easier.

Logos and Corporate ID's can be engraved on the tag kept by the customer. However, should the customer lose the tag, someone finding it may falsely claim the customer's items if they identify the establishment.

It is perhaps better to leave the back of this tag blank, or possibly have a telephone number.

Replacements and Additional Tags

We archive all designs, so if you need replacements – or additional tags – we can create these to exactly match the original sets.

For all orders over 50 sets, we provide a pack of 10 SPARE clasps and rings, free of charge.

Rings and clasps can also be purchased separately.

The fastest and easiest way to order your tags is via our website.

We also take orders over the telephone, and will accept official Purchase Orders and send an invoice for payment.

Payment is via our **SSL Secure** online payment processing system and we take bank cards (Mastercard & Visa), or pay using a PayPal account. We do not accept cheques.

(Credit Terms may be offered to certain customers)
